~[CTRL-H]~ KKK & FRIENDS
 This was a real treat and one that completely blindsided our team. After pillaging and generally shitting on the entirety of Staminus' & co's infrastructure, it was discovered that one of the client box's was housing a real gem. Yes, that's right, Staminus was hosting the KKK and it's affiliates. An organization legally recognized in some regions as a terrorist collective. Not that we hold anything against the KKK. Choosing such an awful host as Staminus however is

unforgiveable, and consequently they had to be punished.
